Observations and Suggestions by the Internal Academic Audit Committee:

1. It is found that during the session student enrolment increased from that in the previous years in the conventional degree courses. However, the no of students admitted in the self-financed UG, PG, diploma and certificate courses have seen a decrease.
2. Some programmes of previous years like diploma in web designing, add on course on personality development and certificate course in fashion technology were discontinued during this academic year.
3. Though the course in Diploma Course in Tea Technology and Plantation Management is not discontinued, but there was no admission of student in this course during the session.
4. Pass percentage of students in B.Com course during the year is only 23.8 %.
5. Student enrolment and final year examination appearing ratio is not found to be in balance. This increases the possibility of increase in future dropout rates of the college.
6. Only one research project is on-going during the session by the faculties of the college. This needs to be enhanced.
7. Only three numbers of Seminars/Workshops was organized during 2021-22 by the college. This is fewer than the previous year averages.
8. It is highly recommended that the college arranges student career awareness and orientation programmes as well as placement drives in the next years since during this academic session not a single such program was organized by the college.
9. College should introduce more number of add-on courses in its curriculum since only three add on courses are being offered by the college for its students during the session.
10. Online grievance redress system needs to be introduced.
11. Organize coaching programmes for the students for various competitive examinations.
12. Alumni network of the college and their involvement needs to be enhanced in the college.
